

Balkan Peninsula New Energy Battery Assembly Company

Will Albania build its first lithium ion battery plant?

Chief Executive Officer Bruno Papaj said the firm signed a memorandum of understanding with an Indian investor on the construction of Albania's first lithium ion battery plant. The facility is planned to come online within two years, with 100 MW in annual capacity.

Is Montenegro a good place to buy a lithium battery?

Additionally, Montenegro has a convenient infrastructure for export and a favorable geographical location. We conducted an analysis of the lithium battery market in the region and concluded that demand for our product will be high.

Does Albania have a hydropower plant?

Hydropower makes up almost the entire domestic output in Albania, which helps balancing to a point, but it has no pumped storage hydropower plants. Furthermore, the country is exposed to drought and often turns to emergency imports.
