

Battery cabinet load-bearing frame diagram

What is a battery cabinet (IBC) system?

Battery Cabinet (IBC) systems are housed in single free-standing cabinets. Model IBC-L with a single battery voltage range is available to meet application runtime needs. Up to four cabinets may be installed to further extend battery runtimes. The cabinets match the UPS cabinet in style

How do I install the 9395 model IBC-L Battery Cabinet?

serve a preferred startup date.1.1 Configuration and installation featuresThe 9395 Model IBC-L battery cabinet is designed to be installed in a standalone configuration using up to two battery cabinets. Power wiring is installed externally between each battery cabinet and the UPS or battery disconnect using conduit. Batt

How many cabinets can be installed on A Powerware 9395 Battery Cabinet?

single battery voltage range is available to meet application runtime needs. Up to four cabinets may be installed to further extend battery runtimes. The cabinets match the UPS cabinet in style and color. Figure 1-1 shows the Powerware 9395 Model IBC-L Battery Cabinet.A DC-rated circ

How do I install a battery cabinet?

tween each battery cabinet and the UPS or battery disconnect using conduit. Battery cabinets may be installed adjacent to the UPS or in a separate location.If the battery cabinet is installed adjacent to the UPS, the recommended installation location for the battery cabinet is on the right side of the UPS cabi

Where is the battery cabinet located?

n location for the battery cabinet is on the right side of the UPS cabinet. This location will allow for future expansion using an external module.Cabinets can be permanently bolted to the floor or left standing on leveling feet.Power and control wiring can be routed through the top or bottom of the cabinet depending on inst

How do you attach a battery cabinet to a field kit?

kit. Align the holes in the small flat bracket over the hinge screw holes. Replace the screws in the hinges, securing the bracket to the cabinets (see Figure 4-3).10. Locate the large flat bracket from the field kit. Place the bracket over the bolts on the bottom side of the adjacent lower hinges on the battery cabinet (seeNOTE
