What is a capacitor market?

The capacitor market is a semi-consolidated market. The market is competitive with the presence of various large-scale manufacturers in the market across the globe. The capacitor market has long-standing established players who have made significant investments.

What is the growth rate of the capacitor market?

The global capacitor market is expected to grow at a CAGR of 6.5% from 2018 to 2030. The market growth is attributed to the increasing demand for capacitors in various applications, such as industrial, automotive electronics, consumer electronics, energy and others.

What is the future of the capacitor market?

Publisher: Lucintel Publication date: Get it in 2 weeks by ordering today. The future of the capacitor market looks promising with opportunities in the computer, telecom, consumer electronics, automotive, and industrial sectors. The global capacitor market is forecast to reach \$31.2 billion by 2027 with a CAGR of 5.9% from 2021 to 2027.

What are the key factors affecting capacitor market growth?

The market growth is attributed to the increasing demand for capacitors in various applications, such as industrial, automotive electronics, consumer electronics, energy and others. In terms of type, the ceramic capacitor segment is expected to hold the largest share of the global capacitor market during the forecast period.

What are the key players in the capacitor market?

Some of the key players from the capacitor market such as KYOCERA Corporation provides ceramic capacitor that has a wide voltage range and low series resistance (ESR). These specifications are well-suited for automotive applications. Thus, rise in sales of electric vehicles is likely to have a positive impact on the market.

How did the global capacitor market perform in 2022?

The global capacitor market rose notably to \$X in 2022, picking up by X% against the previous year. In general, consumption, however, saw a prominent increase. Global consumption peaked at \$X in 2020; however, from 2021 to 2022, consumption failed to regain momentum.
