

Global average battery price query

What is battery pack price?

IEA analysis based on data from Bloomberg and Bloomberg New Energy Finance Lithium-Ion Price Survey (2023). "Battery pack price" refers to the volume-weighted average pack price of lithium-ion batteries over all sectors. Price of selected battery materials and lithium-ion batteries,2015-2024 - Chart and data by the International Energy Agency.

How much does a battery cost in 2022?

In 2022,the estimated average battery price stood at about USD 150 per kWh,with the cost of pack manufacturing accounting for about 20% of total battery cost,compared to more than 30% a decade earlier. Pack production costs have continued to decrease over time,down 5% in 2022 compared to the previous year.

How much does a lithium ion battery cost?

The account requires an annual contract and will renew after one year to the regular list price. The cost of lithium-ion batteries per kWh decreased by 14 percent between 2022 and 2023. Lithium-ion battery price was about 139 U.S. dollars per kWh in 2023.

How much does a battery electric vehicle cost in 2023?

For battery electric vehicle (BEV) packs,prices were \$128/kWh on a volume-weighted average basis in 2023. At the cell level,average prices for BEVs were just \$89/kWh. This indicates that on average,cells account for 78% of the total pack price. Over the last four years,the cell-to-pack cost ratio has risen from the traditional 70:30 split.

How much does a battery cost in 2023?

The figures represent an average across multiple battery end-uses,including different types of electric vehicles,buses and stationary storage projects. For battery electric vehicle (BEV) packs,prices were \$128/kWh on a volume-weighted average basis in 2023. At the cell level,average prices for BEVs were just \$89/kWh.

What is the global market for lithium-ion battery recycling?

The global market for lithium-ion battery recycling is expected to reach 35 billion U.S. dollars by 2031. This figure compares to around six billion U.S. dollars in 2022. Includes battery cell and pack prices Volume-weighted average price including 303 data points for passenger cars,buses,commercial vehicles,and stationary storage.
