

Home appliance backup batteries

What is a home backup battery?

A home backup battery provides a safety net when you need to protect your family against a power loss. It delivers clean power, unlike a home standby generator that relies on fossil fuels. With battery backup solutions, you get energy security and peace of mind.

How long does a home battery backup last?

The battery bank can power more electrical appliances and offer a prolonged backup power supply when integrated with a solar power system. A lithium ion or LiFePO4 battery will typically last for many years before it needs to be replaced. Are Home Battery Backups Worth It?

Do you need a backup battery for your home?

Extreme weather events and aging grid infrastructure mean you need to be ready for the power to go out in your home. A backup battery solution for your home is one of the most efficient ways to keep the lights on when a blackout comes. A home backup battery provides a safety net when you need to protect your family against a power loss.
