

How much does the new Malta battery cost

How much would an electric car battery cost per kilowatt hour?

The analysts concluded that this would be down to declining prices of EV raw materials, such as lithium, nickel, and cobalt. This would mean a battery would cost \$99 per kilowatt hour, drastically reducing an electric car battery replacement cost. [How Can I Keep My Battery Replacement Cost Down Now?](#)

How much does an electric car battery cost in 2023?

According to Statista, the average cost of a lithium-ion electric car battery in 2023 was \$139 per kWh. This works out as £109.25 per kWh in the UK. While it is still expensive, it is much lower than in 2013 when the cost per kWh was \$780 (£613.04). [How Much Does an EV Battery Cost?](#)
