

How to quote for solar panel installation

How do I get a free solar panel quote?

Most reputable solar installers offer free solar panel quotes as part of their service. This will give you a rough estimate of your home's solar potential, system size, and the costs and savings. But make sure there are no strings attached to their quote.

How much does a solar panel installation cost?

Generally, two installers will work together to install your solar panel system, and depending on its complexity, they can take up to 3 days to complete the installation. This means that you can expect to spend anywhere between £600 and £3,000 on labour costs alone.

Do you need a solar panel installer?

If you're already sold on solar panels, then go right ahead and find a trusted solar panel installer to help you harness the power of the sun. You'll only find trades who meet our high standards and pass our quality checks on Checkatrade. How much do solar panels cost? The cost of solar panels per kW system vary.

How do I choose a solar panel system?

A solar panel system is a significant investment, so it's essential to do thorough research before you go all in. Part of that process involves getting quotes from different solar panel companies to compare prices, products, and services to find the best fit for your home.

How long does it take to install solar panels?

Solar panels are usually installed on your roof in a single day, but larger systems will often take more than one day to install, which can cause labour costs to climb. Different companies will charge different amounts for solar panel installation. So, we'd recommend contacting at least three installers to get their prices.

How do I find a qualified solar panel installer?

An installer should be fully qualified and certified. To find an expert, qualified solar panel installer, start your search by reading our hiring guide and then search for a recommended installer on Checkatrade. How do solar panels work? Solar panels benefit from direct sunlight but still generate using daylight, not heat.

The average cost of solar panels is £250 to £350 per m². Find out what costs are involved and what you can expect.
