

What types of storage cabinets are available for lithium-ion batteries?

Various cabinet sizes and equipment variants are available for the safe storage of lithium-ion batteries. There are safety cabinets that are used exclusively for the passive storage of batteries, as well as those that allow both the storage and charging of lithium-ion batteries.

Are there safety cabinets for lithium ion batteries?

There are safety cabinets that are used exclusively for the passive storage of batteries, as well as those that allow both the storage and charging of lithium-ion batteries. ION-LINE passive storage safety cabinets offer a standard 90-minute fire resistance rating both from the outside to the inside and vice versa.

How do I choose a battery storage cabinet?

No matter what safety level you choose, all cabinets offer these key safety features: If you only want to store batteries in the cabinet, choose the STORE version. If you intend to charge (active storage) batteries directly in the cabinet, then choose the CHARGE version.

Are Asecos Ion-line lithium cabinets safe?

Discover the Asecos ION-LINE lithium cabinets for the safe storage and charging of lithium-ion batteries in a fire-protected environment. The ION-LINE cabinet models are specifically designed to meet the highest safety standards. They offer certified fire protection with a 90-minute fire resistance rating from the inside out and outside in.

How to store batteries in the Ion-line safety cabinets?

If you only want to store batteries in the cabinet, choose the STORE version. If you intend to charge (active storage) batteries directly in the cabinet, then choose the CHARGE version. ? Find out exactly how the safety concept of the Asecos ION-LINE safety cabinets works in our video.

How does the Ion-line charging cabinet work?

Integrated grounded outlets at each storage level allow for convenient charging, while smoke and temperature sensors continuously monitor cabinet status. If temperature rises or smoke develops in the cabinet, a 3-stage safety system is activated to initiate fire suppression and trigger alerts. > Discover the ION-LINE charging cabinets.
