

Lithium Battery System Installation Manual Contents

How do I install a battery module?

ed/rotated 180° for mid-mount installation. After selecting the bracket configuration desired, mount the appropriate bracket onto the battery and insert and secure the battery module into a cabinet or rack horizontally and fix the two battery mounting brackets (left and right) to the cabinet or rack posts using appropriate

How do I charge multiple lithium batteries?

When installing multiple batteries in series or parallel connection, please ensure that all modules are fully charged to 100% before connecting in series or parallel connection. Contact Lithionics Battery®; for recommendations on module-level charging. 3. System Operation Press the momentary Power/Reset switch for 1 second.

How do I calibrate the BMS battery module?

The battery module has a large black female Anderson EURO DIN main power connector that must be inserted into the BMS' male main power connector. Use 2 zip ties to bind the connectors together so that they may not separate during use. Initially the system must be FULLY charged once to calibrate the BMS Unit to the Battery Module.

Where should the battery module & BMS unit be mounted?

The Battery Module and BMS Unit should be mounted in an environment that does not receive direct sunlight, pressurized water or road debris. To avoid power interruption, your installation may need to consider controlling the ambient operating temperature. Mount the Battery Module in an upright position, i.e. black lid faces up.

Can I use a lithium battery®; approved charging source?

Only use a Lithionics Battery®; approved charging source. Please contact Lithionics Battery®; for charger approval. The initial charging cycle is required as it calibrates the NeverDIE®; BMS to the Battery Module for accurate State of Charge percentage (SoC) monitoring.

How many lights are on a battery management system (BMS)?

Variety of Communications equipment. Features Simple lithium battery management system (BMS) technology Configuration function Description SOCCapacity Indicator There are 4 green lights stacked and each on ge. 4 lights = 100% 2ALMA Alarm Indicator There is one red LED on the Front Panel. If this light is lit, it indicates an al
