

What is the Norwegian solar energy industry like?

The Norwegian solar energy industry is highly varied with both national and international activities across the PV value chain. Based on interview and survey results we group the firms in three groups; downstream national, downstream international and upstream.

How popular is solar energy in Norway?

With regards to general social acceptance of PV in Norway, a survey executed by Kantar, shows that a large proportion (89%) of the Norwegian population are positive towards solar energy as an energy source, which is rated higher than other renewable energy technologies such as wind power (Kantar, 2020).

Will China work with Norway to promote 'friendly' cooperation on green energy?

REUTERS/Florence Lo/File Photo Purchase Licensing Rights BEIJING, Sept 9 (Reuters) - China is willing to work with Norway to promote "friendly" cooperation including on green energy, President Xi Jinping told visiting Norwegian Prime Minister Jonas Gahr Støre in Beijing on Monday.

What does a Norwegian solar company do?

Norwegian firms are involved in project development, operation and maintenance and/or ownership of large utility scale PV plants, as well as sales and installation of decentralized solar home systems or "pico" solutions, such as solar lamps or PV powered devices used in agriculture.

Does Norway have a solar market?

Downstream national (deployment, integration and use of PV in the Norwegian market): The Norwegian market for PV has grown in recent years and we show that an increasing number of firms have entered the industry. However, annual and cumulative installations in Norway are much lower than neighbouring countries with similar solar resources.

What are the regulations for the Norwegian solar PV industry?

Following regulations for the Norwegian solar PV industry is critical. The supply companies acknowledge that any equipment that is delivered to Norway should be translated in a Scandinavian language with a Norwegian user manual for installation. Other regulations refer to CO2 footprint.
