

Old large battery price

How much is a scrap car battery worth?

At present, scrap car batteries are worth around £470 per tonne. Read on to find out how scrap batteries are valued...How do I sell a scrap battery? How do I recycle scrap batteries? Should I scrap a car in one piece? So, how much could you get for your scrap car battery?

Are old car batteries worth recycling?

The UK has a good record for recycling car batteries, but in some developing countries, there are no recycling programmes - making old car batteries a serious environmental concern. The Car.co.uk scrap team explains what car batteries are worth to dismantlers and how you can be sure they're disposed of correctly.

Where can I sell old car batteries?

Some people sell old batteries on Gumtree, eBay and other sites, though batteries sold in this way should be collected as it can be expensive and dangerous to send them by a courier service. Some councils will accept scrap car batteries at their recycling centres, but they don't pay money for them.

Who can sell scrap car batteries?

Anyone with scrap car batteries can sell them. This includes individuals, auto repair shops, mechanics, and businesses that deal with automotive parts. Selling scrap car batteries is a way to not only dispose of unwanted items but also earn money from the valuable metals they contain. Selling scrap car batteries can be a straightforward process.
