

# What does the solar roof scheme mean

What is a solar panel rent-a-roof scheme?

The Rent-a-Roof scheme lets people who can't otherwise afford solar panels gain access to them, through installers who will setup solar panels on roofs for reduced prices. Installers can then sell any excess electricity generated back to the grid.

How many homes have a rent-a-roof solar panel scheme?

While the Feed-in Tariff was in effect, more than 900,000 homes in the UK had solar panels installed - so we can estimate that around 27,000 households signed up for a rent-a-roof scheme. What were the problems with rent-a-roof solar panel schemes?

Can you get free solar panels on a roof?

Companies offered to pay to lease your roof from you for 20-25 years and, in exchange, would install and maintain solar PV panels on it. You didn't have to pay upfront for the panels, and would also benefit from the free electricity produced by the system. But there are very few free solar panel schemes available now.

How do rent-a-roof solar panels work?

Rent-a-roof solar panel schemes required homeowners to give a solar company the rights to their rooftop or the airspace above it for up to 25 years. That company would then install rooftop solar panels for free, in return for receiving the household's Feed-in Tariff payments.

How do free solar panel schemes work?

'Free' solar panel schemes, also known as rent-a-roof schemes, used to be commonplace a few years ago. These were run by companies eager to cash in on the feed-in tariff (FIT). This guarantees payment in return for electricity generated using renewable technologies, including solar power.

Do you still own your roof if you get solar panels?

Most households that get solar panels still own their roof, because they buy the panels outright or use a solar subscription like Sunsaver Plus, both of which allow them to maintain ownership of their roof. You can access solar roof leases which take control of your roof for a set number of years, in return for a free solar installation.

Rent-a-roof solar panel schemes required homeowners to give a solar company the rights to their rooftop or the airspace above it for up to 25 years. That company ...

At current benchmark prices, this will mean Rs 30,000 subsidy for 1 kW system, Rs 60,000 for 2 kW systems and Rs 78,000 for 3 kW systems or higher. Who are eligible to ...
