Which phone has the best battery life?

The Motorola Edge Plus(2023) sits proudly on our list of the best phones with the best battery life for good reason. It comes with a 5,100mAh battery, which is barely better than usual. What really makes this phone last is its Snapdragon 8 Gen 2 optimizations. During our tests, we managed to get about two days of juice out of a full charge.

Which Asus phone has the best battery life?

That's mostly thanks to the new Snapdragon 8 Elite chip, so we expect that other new phones powered by that chip, like the OnePlus 13, may soon be nipping at Asus' heels. For now, however, the ROG Phone 9 Pro takes the crown for delivering the best battery life and performance.

Which ROG Phone has the best battery?

Take the ROG Phone 8 Pro, which currently heads our list after turning in the best result we've ever seen on our battery test. (A successor -- the ROG Phone 9 -- is set to debut this month, powered by a chipset that promises even greater efficiency, so stay tuned to see if the record gets shattered once again.)

Which phone has the shortest battery life?

In this Galaxy S24 Ultra vs iPhone 15 Pro Max vs OnePlus 12 vs Pixel 8 Pro battery life showdown, we'll dial into how long they last to ultimately crown a winner -- along with how fast they charge. Starting off with the one with the shortest battery life, the Pixel 8 Pro lands in last position with a time of 10 hours and 3 minutes.

How long does a phone battery last?

This influx of long-lasting phones is making it tougher than ever to land a spot in this best phone battery life guide. A phone would need to hold out for more than 14 hours on the battery test we run on each phone just to have a chance of making the grade. Just a couple years back, 12 hours would have been good enough for a spot on this list.

Which iPhone has the longest battery life?
